Policy of the Month

This month we would like to draw your attention to the policy explaining how we manage the children's behaviour.

Our intention is that by positively promoting good behaviour, valuing co-operation and a caring attitude we hope to ensure that children will develop as responsible members of society.

The full policy includes guidance regarding how we work with children to promote positive behaviour and children who behave in unacceptable ways and a separate section on Anti-bullying.

To make the policy as accessible as possible for all parents we have placed a copy in the entrance of each setting and there is also one in each Policy Folder.

Here's the link so that you can easily view the policy on our website at:
